DDI #00592-85
4 February 1985

NOTE TO: Chief, CRES

FROM : Deputy Director for Intelligence

SUBJECT: FICG

I am concerned that FICG has gotten itself involved in so many different kinds of things that its actual production of finished intelligence is suffering. As I recall, they have only produced one or two IAs over the last year or so. I think there may be a need for tightening up FICG management in order to extract more finished products from Tom, especially now that they have a fairly large group. I'd appreciate your looking into this and getting back to me.
